Independent auditor's review report on the interim condensed consolidated financial statements to the shareholders of Zamil Industrial Investment Company (A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying interim condensed consolidated statement of financial position of Zamil Industrial Investment Company ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 30 June 2019, and the related interim condensed consolidated statements of profit or loss and comprehensive income for the three-month and six-month periods ended 30 June 2019, and the related interim condensed consolidated statement of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 endorsed in the Kingdom of Saudi Arabia.

Zamil Industrial Investment Company (A Saudi Joint Stock Company) and its Subsidiaries

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

At 30 June 2019

1 CORPORATE INFORMATION (continued)

During the period, legal formalities with respect to liquidation of Zamil Hudson Company Limited and Petro-Chem Zamil Company Limited have been completed and accordingly the Group have derecognised assets, liabilities and non-controlling interest related to these subsidiaries.

The Company and its subsidiaries listed above (collectively referred to as the "Group") are engaged in design and engineering, manufacturing and fabrication of construction materials, pre-engineering steel buildings, steel structures, air conditions and climate control systems for commercial, industrial and residential applications, telecom and broadcasting towers, process equipment, fiberglass, rockwool and engineering plastic foam insulation, and solar power projects.

The interim condensed consolidated financial statements of the Group as of 30 June 2019 were authorised for issuance in accordance with the Board of Directors resolution on 25 July 2019 (corresponding to 22 Dhu Al-Qa'dah 1440H).

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" as endorsed in Kingdom of Saudi Arabia (KSA). The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2018. In addition the results of the operations for the period ended 30 June 2019 do not necessarily represent an indicator for the results of the operations for the year ending 31 December 2019.

These interim condensed consolidated financial statements are prepared using historical cost convention except for the remeasurement of equity instruments at fair value through other comprehensive income, using the accrual basis of accounting. For employees and other post-employment benefits, actuarial present value calculation is used.

These interim condensed consolidated financial statements are presented in Saudi Riyals ("SR") which is also the functional currency of the Group. All values are rounded to the nearest thousands ("SR '000"), except when otherwise indicated.

New standards, interpretation and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of new standards effective as of 1 January 2019. The Group has not early adopted any other standard, interpretation or amendment that has been issued but not yet effective.

The Group applies, for the first time, IFRS 16 Leases that requires restatement of previous financial statements. Several other amendments and interpretations apply for the first time in 2019, but do not have an impact on the interim condensed consolidated financial statements of the Group. As required by IAS 34, the nature and effect of these changes are disclosed below:

IFRS 16 Leases

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. Since, the Group recognised the right-of-use assets at the amount equal to the lease liabilities, adjusted by the amount of any prepaid lease payments relating to that lease recognised in the consolidated statement of financial position immediately before the date of initial application. Therefore, no adjustments were required in the retained earnings at the date of initial application.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

New standards, interpretation and amendments adopted by the Group (continued)

IFRS 16 Leases (continued)

The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

The effect of adoption of IFRS 16 as at 1 January 2019 (increase/(decrease)) is as follows:

	<i>SR'000</i>
Assets	
Right-of-use assets	131,319
Prepayments	(11,806)
Total assets	119,513
Liabilities	
Lease liabilities	119,513
Total liabilities	119,513

Gross lease liabilities at 1 January 2019 have been discounted using a weighted average incremental borrowing rate of 5.43%.

The Group has lease contracts for land and other equipment. Before the adoption of IFRS 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability. In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in profit or loss on a straight-line basis over the lease term. Any prepaid rent were recognised under prepayments.

Upon adoption of IFRS 16, the Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The standard provides specific transition requirements and practical expedients, which has been applied by the Group.

Leases previously classified as finance leases

The Group did not have any liabilities recognised as finance lease liabilities at the date of initial application of IFRS 16.

Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets for most leases were recognised based on the carrying amount as if the standard had always been applied, apart from the use of incremental borrowing rate at the date of initial application. In some leases, the right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

New standards, interpretation and amendments adopted by the Group (continued)

IFRS 16 Leases (continued)

Leases previously accounted for as operating leases (continued)

- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease
- By class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component

Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e., below SR 18,750). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

At 30 June 2019

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

New standards, interpretation and amendments adopted by the Group (continued)

IFRS 16 Leases (continued)

Amounts recognised in the interim condensed consolidated statement of financial position and profit or loss

Set out below, are the carrying amounts of the Group's right-of-use assets and lease liabilities and the movements during the period:

	<i>Right-of-use assets SR'000</i>	<i>Lease liabilities SR'000</i>
As at 1 January 2019	131,319	119,513
Depreciation expense	(10,753)	-
Interest expense	-	3,002
Payments	-	(8,635)
As at 30 June 2019	<u>120,566</u>	<u>113,880</u>

Right-of-use assets represent lease hold lands and buildings.

3 SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of the Group's interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements, except for new significant judgments and key sources of estimation uncertainty related to the application of IFRS 16, as described in note 2 above.

4 REVENUE FROM CONTRACTS WITH CUSTOMERS

Set out below is the disaggregation of the Group's revenue from contracts with customers:

	<i>Six-month period ended 30 June (Unaudited)</i>	
	<i>2019</i>	<i>2018</i>
	<i>SR '000</i>	<i>SR '000</i>
Sale of goods	1,353,637	1,435,679
Rendering of services	150,829	174,460
Revenue from long-term contracts	555,468	412,675
Total revenue from contracts with customers	<u>2,059,934</u>	<u>2,022,814</u>

Reconciliation of the Group's disaggregate revenue for its reportable segments and timing of revenue recognition is disclosed in note 11.

5 ZAKAT AND INCOME TAX

a) Zakat

The provision for the period is based on zakat base of the Company and its wholly owned Saudi subsidiaries as a whole and individual zakat base of other Saudi subsidiaries (2018: same).

The zakat assessments of the Company and its wholly owned Saudi subsidiaries as a whole have been agreed with the General Authority of Zakat and Tax ("the GAZT") up to 2013. The zakat declarations for the years 2014 to 2018 have been filed with the GAZT. However, the assessments have not yet been raised by the GAZT. The Zakat regulations in Saudi Arabia are subject to different interpretations and the assessments to be raised by the GAZT could be different from the declarations filed by the Company.

b) Income tax

Income tax provision is provided for in accordance with authorities in which the Group's subsidiaries operate outside the Kingdom of Saudi Arabia. Income tax has been computed based on the managements' understanding of the income tax regulations enforced in their respective countries. The income tax regulations are subject to different interpretations, and the assessments to be raised by the tax authorities could be different from the income tax returns filed by the respective company.

c) Deferred tax

During the period, the Group has booked a net deferred tax benefit of SR 54 thousands (30 June 2018: net deferred tax expense of SR 335 thousands).

6 EARNINGS PER SHARE

Basic and diluted earnings per share is calculated by dividing the net income for the period attributable to the shareholders of the parent company by the weighted average number of outstanding shares during the period as follows:

	<i>Three-month period ended 30</i>		<i>Six-month period ended 30</i>	
	<i>June</i>		<i>June</i>	
	<i>(Unaudited)</i>		<i>(Unaudited)</i>	
	<i>2019</i>	<i>2018</i>	<i>2019</i>	<i>2018</i>
<i>Net loss for the period attributable to the shareholders of the parent company (SR '000):</i>				
Continuing operations	(49,553)	(38,248)	(96,705)	(22,680)
Discontinued operations	-	(1,520)	-	(1,520)
	(49,553)	(39,768)	(96,705)	(24,200)
Weighted average number of outstanding shares during the period (share '000)	60,000	60,000	60,000	60,000
<i>Earning per share</i>				
Basic and diluted earnings per share attributable to the shareholders of the parent company	(0.83)	(0.66)	(1.61)	(0.40)
<i>Earning per share for continuing operations</i>				
Basic and diluted earnings per share attributable to the shareholders of the parent company	(0.83)	(0.64)	(1.61)	(0.38)
<i>Earning per share for discontinued operations</i>				
Basic and diluted earnings per share attributable to the shareholders of the parent company	-	(0.02)	-	(0.02)

At 30 June 2019

7 PROPERTY, PLANT AND EQUIPMENT

During the six-month period ended 30 June 2019, the Group has acquired assets with a cost of SR 17.8 million (six-month period ended 30 June 2018: SR 20.9 million) and charged depreciation to the interim condensed consolidated statement of profit or loss of SR 60.7 million (six-month period ended 30 June 2018: SR 62.2 million).

At 1 January 2016, the Group determined that the recoverable amount of its property, plant and equipment in a subsidiary, Zamil Steel Buildings India Private Limited, which is considered a CGU, was less than its carrying amount and accordingly an impairment loss of SR 59,590 thousands was recognised.

During the period, as a result of increase in sale volumes and resumption of activities of the subsidiary to normal operational level, the Group determined that the recoverable amount of its CGU, has exceeded its carrying amount. Accordingly, an impairment loss of SR 40,184 thousands was reversed. The recoverable amount as at 30 June 2019 was based on value in use and was determined at the level of the CGU. In determining value in use for the CGU, the cash flows were discounted at a rate of 18.82% on a pre-tax basis.

During the period, the Group determined that the recoverable amount of property, plant and equipment of a subsidiary, Building Component Solutions Limited, which is considered a cash generating unit (CGU), was less than its carrying amount. The recoverable amount was based on the CGU's value in use using a pre-tax discount rate of 13.65%. This resulted in an impairment loss of SR 5.6 million. The amount has been recognised in the consolidated statement of profit or loss.

8 SHARE CAPITAL

The authorised, issued and fully paid share capital of the Company is divided into 60 million shares (31 December 2018: same) of SR 10 each.

9 CONTINGENT LIABILITIES

The Group's bankers have issued performance and payments guarantees, on behalf of the Group, amounting to SR 1,202 million (31 December 2018: SR 1,079 million).

10 RELATED PARTY TRANSACTIONS' AND BALANCES

Related parties represent major shareholders, directors and key management personnel of the Group, and entities controlled or significantly influenced by such parties. The ultimate parent company of the Group is Zamil Group Holding Company (a Saudi Closed Joint Stock Company) registered in Dammam, Kingdom of Saudi Arabia.

The Group in the normal course of business carries out transactions with various related parties. Transactions with related parties' included in the interim condensed consolidated statement of income are as follows:

<i>Relationship and name of related party</i>	<i>Nature of transactions</i>	<i>Six-month period ended 30 June (Unaudited)</i>	
		<i>2019 SR '000</i>	<i>2018 SR '000</i>
<i>Ultimate parent company</i>			
Zamil Group Holding Company	Sales	479	877
	Purchases	497	1,386
<i>Joint venture</i>			
Middle East Air Conditioners Company Limited	Sales	18,147	1,785
<i>Other related parties</i>			
	Sales	6,733	4,688
	Purchases	10,339	10,120

The compensation to the key management personnel during the period amounted to SR 3,527 thousands (30 June 2018: SR 3,436 thousands).

Pricing policies and terms of payments of transactions with related parties are approved by the Board of Directors. Outstanding balances at the period-end are unsecured, interest free and settled in cash.

Amounts due from related parties at 30 June 2019 amounting to SR 98,745 thousands (31 December 2018: SR 95,051 thousands) have been included in the accounts receivable in interim condensed consolidated statement of financial position. Amounts due to related parties at 30 June 2019 amounting to SR 17,380 thousands (31 December 2018: SR 21,841 thousands) have been included in the accounts payable in interim condensed consolidated statement of financial position.

11 SEGMENTAL INFORMATION

For management purposes, the Group is organised into business units based on its products and services and has four reportable segments, as follows:

- The air conditioners industry, which is engaged in production of window, split and central air conditioners, electrical and gas ovens, automatic dryers, microwave ovens, air-conditioning ducts/channels, household refrigerators, automatic washing machines and installation, maintenance, operation and leasing of air conditioning and refrigeration systems.
- The steel industry, which is engaged in construction, managing and operating industrial projects, constructing, managing and operating airports and warehouses, constructing and providing fire protection services for building and structures, building, repairing and maintaining the communication towers, business of steel sheets works, heavy equipment and its spare parts, storage tanks, installation containers and pumps and implementation of electric works.
- The insulation industry, which is engaged in production of complete line of insulation products including fiberglass for using in thermal insulation of central air conditioners, pre-insulated pipes, glass wool, rock wool and engineering plastic foam insulations.
- Corporate and others, which are engaged in providing corporate and shared services, training and investment activities.

No operating segments have been aggregated to form the above reportable operating segments. The Board of directors monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on income and is measured consistently in the interim condensed consolidated financial statements.

12 FAIR VALUES OF FINANCIAL INSTRUMENTS

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

As of reporting date, there were no Level 1, 2 or 3 assets or liabilities except for equity instruments at fair value through other comprehensive income representing unquoted shares and these have been valued using Level 3 valuation technique.

Financial assets consist of cash and cash equivalents, equity instruments at fair value through other comprehensive income, accounts receivable, net investment in finance lease and some other current assets. Financial liabilities consist of term loans, short term loan, accounts payable and some other current liabilities. The fair values of financial assets and financial liabilities approximate their carrying amounts.

Set out below is a comparison, of the carrying amounts and fair values of the Group's equity instruments at fair value through other comprehensive income:

	40,538	40,538	-	-	40,538

The fair value of the Group's investments in unquoted equity shares at 31 December 2018 was measured using Level 3 (significant unobservable inputs). The Group estimated the fair value of the investment using adjusted net asset method at 31 December 2018. The adjusted net asset method involves deriving the fair value of an investee's equity instruments by reference to the fair value of its assets and liabilities. The management believes that there have been no significant changes in the value of investment from 31 December 2018.

13 SUBSEQUENT EVENTS

In the opinion of management, there have been no further significant subsequent events since the period ended 30 June 2019 that would have a material impact on the financial position of the Group as reflected in these interim condensed consolidated financial statements.

14 COMPARATIVE FIGURES
